Thanks for the high-quality ID! It works fine for me!

I got my first fake ID from the idhurry and I'm satisfied. Just as they say, it does the job. Never had any problems with that card, now I can get anything I want. Super!

Adam99 California

Never thought I would order a fake ID but it has happened... It seems to me that I have made a right choice by contacting the idhurry.com from the start - they offer nice service and good quality. I feel secure with that fake ID because it feels just like real one. Within two years I'll get a real one, and it will be interesting to compare it...

The ID is great! Everything is in place: it passes the UV scan and has the hologram, and the photo is fine, and it feels real because the PVC is just like on real ones. I have been using it for almost 6 months by now, and I never had any problems, though I believe that I look very young. Nobody ever doubted it was real!

Only Bitcoins And Litecoins

HOW TO PAY

At this moment we accept only **Bitcoin** and **Litecoin**, because:

- it's more secure
- it's safe for you
- it's safe for us
- no fees

Don't fall into Western Union or Moneygram sellers, it's a horrid scam from countries like Pakistan or China.

What is difference between Bitcoin and Litecoin?

Litecoin has lower fee than Bitcoin and it's a little bit faster (we have **6% off** for Litecoin purchases).

However, they are pretty similar.

Where can I buy bitcoins?

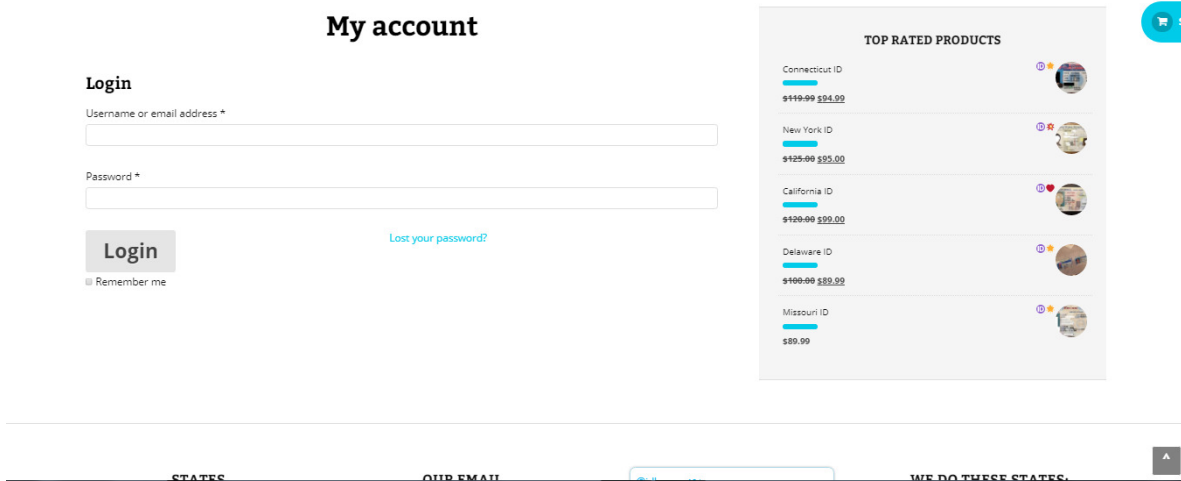

The best way to buy bitcoins anonymously is to make cash deposit at [Localbitcoins.com](https://localbitcoins.com).

Super easy, anyone could literally do it. The seller will provide you with all the information you need in order to complete the transaction. All you need to do is ask the teller for a bank slip.
